

Aurora Ceremony

Beautiful woman,

From the unconditional Love and pure Bliss of the Divine Mother I may invite you for an initiating ceremony with the Hawaiian Baby Woodrose and Her energy. When you feel yourself ready for the next level of spiritual development, you will feel yourself called by the Mother to this initiation.

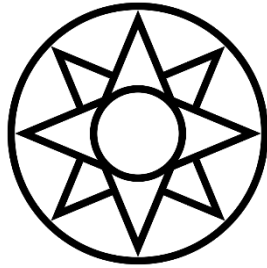

In an individual two-day ceremony you will submerge yourself deeper and deeper into the heart-centered, feminine energy of the Divine Mother. The sweet and loving nectar of the Mother is always present within us but only upon request will this energy be activated for you. Beware because Love dredges up all that is not love, for you to be seen and transformed.

The Aurora initiation is part of your endgame when you are ready to attain radical self-responsibility, to be reborn into the truth of Love and to surrender your soul to the Divine Mother.

The *Hawaiian Baby Woodrose* is an energy that 'calls' to you. You feel yourself drawn into curiosity and excitement with this plant and the Aurora ceremony. You are ready to let the sweet and loving energy of compassion flow right through you. In order to receive this blissful energy you have already established a solid pedestal within yourself.

The Aurora ceremony is highly individualised and personal. Since the Mother does her 'work' in the dark not much can be revealed here. I can tell you more in a personal Zoom meeting so you can get a feel for what might come for you.

The Aurora ceremony is 'only' an initiation and the beginning of a deep and sometimes subtle process of transformation. This process will start the moment you decide to answer the call for this initiation from the Mother and will continue long after the ceremony. We will keep in warm & close contact in order to monitor your process together.

The Aurora Ceremony takes around 60 hours and is only given in a private setting. The first day we work with the elements, do some shadow work and in the night you travel to the temple of the Mother Goddess. The second day we will connect with your personal goddess emanation through Inner Bliss yoga and in the night your journey continues with the Woodrose. Leading up to the Aurora Initiation you will receive diet and meditation instructions for the two weeks prior to the ceremony.

I'm based on the paradisaical island of Sao Miguel in the Azores and host this ceremony on a beautiful location surrounded by nature.

“The initiation.... [is] to move through another reality to conquer it and transmute it - is to be faced with these energies and entities that seemingly are of incredible darkness and to understand that they are coming to merge with you because they are you.”
